MATERIAL SKYLIGHT WARRANTY

It is hereby warranted that Architectural Specialties Inc. (ASI) skylight material and factory workmanship will be free from defects for a period of five (5) years for Glass Skylights and one (1) year for Acrylic Dome Skylights from the date of original retail purchase by the end-user. In the event that any failure occurs within this period due to the material furnished or factory workmanship of ASI, the company will repair or replace such defective materials or workmanship. This warranty does not include removal of defective unit nor installation of an equal replacement unit.

This warranty is expressly limited to defective materials and factory workmanship, and is not a warranty against defects or deterioration resulting from the field installation, work of others, or caused by normal depreciation, wear and tear, building subsidence, and Acts of God. This warranty is conditioned upon written notification to ASI by the Owner of any failure within ten (10) days after failure comes to the attention of the Owner. Furthermore, before receiving warranty service, ASI or its agents may require that you furnish proof of purchase.

ASI further warrants that the skylight shall remain free from “through water leakage” (which is defined as the appearance of water other than condensation on the room side face of any part of the skylight) during the term of this warranty, provided that such “through water leakage” is not the result of any forces enumerated in the preceding paragraph.

The limit of our liability for any loss or damage resulting from defective goods or from any other case shall be limited to repair or replacement of the defective material, FOB factory. ASI shall not be liable for any incidental or consequential damages in connection therewith, nor for any labor and/or shipping fees.

Herb Kroeger, President
